Korea and ASEAN Meet to Discuss Cooperative Measures for “Transition to Smart Mobility”

*Ministry of Land, Infrastructure and Transport holds the 12th ASEAN-ROK
Transport Cooperation Forum on August 23, 2022*

Release Date: August 23, 2022

Contact: Shon Hyun-kyoung (044-201-3306, hand1016@korea.kr)

□ Transport officials from the Ministry of Land, Infrastructure and Transport (MOLIT, Minister Won Hee-ryong) of Korea and from the 10 ASEAN member states gathered together and **discussed cooperative measures** between Korea and ASEAN for **transition to smart mobility**.

○ MOLIT announced that it hosted the **12th ASEAN-ROK Transport Cooperation Forum** at Lotte Hotel in Seoul on August 23, 2022 to discuss ways to expand cooperation for **transition to smart mobility**, which is considered the **future of sustainable transport**.

□ In his opening remarks, **Minister Won Hee-ryong** said, “Starting with driverless autonomous taxi RoboRide, the **era of future mobility** has begun in full force in **Korea**, with **innovative services** such as urban air mobility and robot/drone-based delivery **drawing keen attention**.”

○ Minister Won also stated that he expected **Korea and ASEAN to go together** in the era of transition to smart mobility, given that the “**digital wind**” **currently blowing in ASEAN** is a **reliable driving force** for smart mobility and transport innovation for both sides.

□ This was followed by **welcome remarks** from **Secretary-General Novie Riyanto of Indonesia**, the chair of the ASEAN Senior Transport Officials Meeting (STOM), and then by **congratulatory remarks** from **Secretary-General Hae-yong Kim of the ASEAN-Korea Centre**.

○ **Dr. Jaehak Oh, president of the Korea Transport Institute**, delivered the **keynote speech** that conveyed the main theme of this year's forum "*The Strategy for Transition to Smart Mobility*."

□ The forum proceeded with **Session I**, which mainly dealt with **cooperative measures** between Korea and ASEAN **on infrastructure for smart mobility**. Discussions were enriched by the **presence of a wide range of participants** - ASEAN delegations, representatives of Korea Overseas Infrastructure & Urban Development Corporation (KIND) and the ASEAN-Korea Centre, as well as **Embassy officials of ASEAN member states in Korea**.

□ In **Session II** that addressed the **ROK strategy for transition to smart mobility**, MOLIT set the tone first by sharing with the audience **Korea's policies on autonomous vehicles**. Subsequently, Mr. Sehun Kim, managing director of SOCAR, Korea's app-based car-sharing company, presented the **success case of shared mobility and its future, based on carsharing**.

○ In the following session, **UNESCAP** introduced research results on **enhancing smart mobility in ASEAN**, and ASEAN member states also shared their country cases, which were proceeded with under the session theme of the current status of smart mobility infrastructure in ASEAN and cooperative measures.

○ During the **Q&A slots** allotted for each session, participants - a total of 200 including remote participants at home and abroad - exchanged ideas on **how to promote the introduction and expansion of smart mobility** through strong cooperation between Korea and ASEAN.

□ Mr. Lee Woo-je, Director General for Policy Planning of MOLIT said, “With the **rapid shift in the global transport environment toward future mobility, ASEAN member states** that are **accelerating digitalization of transport** were actively engaged in the forum.”

○ He also added, “Our ministry will share **Korea’s policies for mobility innovation and further achievements with ASEAN**, not only for our win-win development but for **helping Korean companies enter the ASEAN market** in this new field of transport.”

/END/
