- *Distributed to over 1,000 institutions at home and abroad, including international organizations, overseas diplomatic missions, and public institutions from June 1st*
- *Available for downloading from the National Atlas website (nationalatlas.ngii.go.kr)*

The National Geographic Information Institute (NGII, Director General CHO Woo-seok) of the Ministry of Land, Infrastructure and Transport (MOLIT, Minister WON Hee-ryong) announced that it would publish* the revised Korean and English versions of ‘The National Atlas of Korea for Youth’ (hereinafter referred to as the National Atlas) and distribute them from June 1st.

* This publication is the first revision since the first publication of the National Atlas for Youth in 2017.

The National Atlas has secured the quality suitable for the status of national records by utilizing techniques for producing digital map and infographic based on the latest statistics to effectively deliver accurate national land information in domestic and overseas educational fields.

The National Atlas is scheduled to be sequentially distributed to around 1,000 institutions, including major domestic and foreign public institutions, libraries, international organizations, as well as diplomatic missions abroad, and could be used as an official material to effectively publicize Korea to the international community.

The National Atlas is serviced as digital content through the website (nationalatlas.ngii.go.kr), and there, various national atlases published by the NGII can be viewed or downloaded along with the National Atlas published this time.

Director General Cho of the NGII said, “The National Atlas of Korea will be a foundation for spreading proper awareness of the national territory and a powerful means to attract international support for our territory and geographical names.”

Meanwhile, NGII plans to promote the status of the National Atlas by submitting the English version published this time to the Map Exhibition of International Cartographic Conference 2023, which will be held upcoming August in Cape Town, Rep. of South Africa.
