- Held at COEX in Seoul from Wed. 28 to Fri. 30 June

- A variety of side events such as Land Transportation R&D products, Global Mobility Conference, and lectures on start-up and business management, etc.

Hosted by the Ministry of Land, Infrastructure and Transport (MOLIT, Minister WON Hee-ryong) and organized by the Korea Agency for Infrastructure Technology Advancement (KAIA, President PARK Seung-ki), the **Land, Infrastructure and Transportation Technology Fair 2023** (hereinafter referred to as the **Technology Fair**) will be held at COEX in Seoul from June 28th to 30th.

The Technology Fair, which is celebrating its 13th edition this year, was planned to commemorate the 20th anniversary of **Land, Infrastructure and Transportation (LIT) R&D** under the theme of **New Takeoff, Leap Together** where people can experience current LIT Technology and foresee the future vision and challenging technologies in the field.

It consists of a total of 5 exhibition halls, including Future LIT R&D Hall, LIT Company Growth Hall, Mobility Hall, Smart LIT Hall, and Carbon Neutrality Hall.

To support exhibition touring, a docent program is operated (pre or on-site applications with 15 or more people), and various participation programs such as on-site live quizzes are also prepared.

In addition, several forums and seminars such as the Global Mobility Conference are organized to exchange the latest information on international technology and policy trends in the mobility area.

Forums and lectures, including the GPT School for LIT Enterprises to guide various financial, investment, and fostering support policies needed by LIT related companies and share experiences with successful entrepreneurs, were also arranged*.

* Major schedules and detailed programs can be found on the official website, **LITT 2023** (www.littfair.kr).

MOLIT Vice Minister LEE Won-jae stated, "At this Technology Fair, people can notice not only excellent LIT R&D achievements, but also the future city of 2050, and we have prepared various programs to support LIT companies hoping greater participation from those who are interested in".
