※ Including overhead expenses (including BHS)

※ Construction costs, design costs, etc. can be adjusted depending on the circumstances of the ordering organization.

2. Eligibility

- ① Both domestic and foreign licensed architects can apply. An architect refers to a person who holds an architect's license in the relevant country in accordance with relevant laws and regulations.
- ② An entrant who has an architect license that is not issued in Korea cannot enter the competition individually
- ③ If entering as a group, the number of members for each group will be limited to a maximum of 4.
 - The investment ratio of each member must be more than 10%, and the person with the highest participation percentage in the architectural design sector becomes the joint application representative.
 - One member of each group must be appointed as a representative. The representative has the authority to submit and receive any related documents and to acquire and relinquish any right for the design competition on behalf of the co-applicants.

- Individuals or groups in this design competition are not allowed to make more than one submission.
